

FATHIMA SHAHALA

Flutter Developer | Full Stack (MERN) Developer

+91 9645987948 | shahala.rafeek123@gmail.com | Thrissur, Kerala | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Software Engineer with experience in designing and developing scalable web and cross-platform mobile applications using the MERN Stack and Flutter. Skilled in React.js, Node.js, Express.js, MongoDB, Flutter, Dart, JavaScript, and REST API development. Experienced in building responsive user interfaces, implementing secure authentication, integrating databases, and deploying production-ready applications. Strong understanding of software development principles, Agile methodologies, Git workflows, and clean architecture. Passionate about solving real-world problems through efficient, maintainable, and user-focused software solutions.

TECHNICAL SKILLS

- Programming Languages:** JavaScript (ES6+), Dart, HTML5, CSS3
- Frontend:** React.js, Flutter, Responsive Web Design
- Backend:** Node.js, Express.js, REST APIs, API Integration, JWT Authentication
- Databases:** MongoDB, Firebase, SQLite, Mongoose
- State Management:** GetX, React Hooks, Context API
- Tools & Technologies:** Git, GitHub, Postman, Vite, NPM, VS Code, Android Studio, Axios
- Development:** Netlify, Vercel, Render, Firebase Hosting
- Software Practices:** Agile, Scrum, SDLC, OOP, MVC Architecture, Clean Code, Version Control, Debugging, Performance Optimization

PROFESSIONAL EXPERIENCE

Freelance Software Developer

July 2025 - Present
Kerala, India

- Designed and developed responsive websites and custom web applications using React.js and the MERN Stack.
- Built Flutter mobile applications tailored to client requirements.
- Integrated third-party REST APIs and Firebase services.
- Delivered projects independently while maintaining code quality and meeting deadlines.
- Customized UI components and optimized application performance based on client feedback.

Full Stack Developer

November 2024 - July 2025
Kerala, India

Techmindz

- Developed and maintained full-stack web applications using the MERN Stack (MongoDB, Express.js, React.js, Node.js).
- Designed and integrated RESTful APIs for seamless communication between frontend and backend systems.
- Implemented JWT-based authentication and role-based authorization to secure applications.
- Built reusable React components and responsive user interfaces for desktop and mobile devices.

- Optimized API performance and database queries using MongoDB and Mongoose.
- Collaborated with cross-functional teams following Agile development methodologies.
- Used Git and GitHub for version control, code reviews, and collaborative development.
- Participated in debugging, testing, and deployment to ensure application quality.

Flutter Developer

February 2024 - May 2024

ERE Business Solution Pvt. Ltd.

Kerala, India

- Developed cross-platform mobile applications for Android and iOS using Flutter and Dart.
- Integrated REST APIs and Firebase services for real-time data management.
- Implemented GetX state management for scalable and maintainable applications.
- Converted UI/UX designs into responsive and interactive mobile interfaces.
- Performed unit testing, debugging, and application optimization.
- Worked collaboratively in Agile teams using Git and Postman.

CERTIFICATIONS

- MERN Stack Web Development
- Flutter Mobile Application Development

EDUCATION

Bachelor of Technology in Computer Science & Engineering

University: APJ Abdul Kalam University, India

Duration: 2017 – 2021

CGPA: 8

PROJECTS

BookNest – Personal Reading Tracker & Review Platform

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Multer, Axios, Vite, Render, Vercel

- Developed a full-stack reading tracker and review platform using the MERN stack, enabling users to organize and manage their personal book collections.
- Implemented secure JWT authentication and authorization with protected routes and user-specific dashboards.
- Built comprehensive CRUD functionality for books, reviews, reading sessions, goals, favorites, and custom reading lists.
- Designed responsive and reusable React components with search, filtering, sorting, and progress tracking features.
- Developed RESTful APIs using Express.js and MongoDB with Mongoose for efficient data management.
- Integrated image uploads using Multer and optimized application performance for a seamless user experience.
- Deployed the frontend and backend using Vercel and Render.

Key Skills: MERN Stack, React.js, Node.js, MongoDB, Express.js, REST API, JWT Authentication, Multer, Axios, Responsive Design

Task Management System

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Developed a full-stack task management application with secure user authentication and task organization features.
- Implemented complete CRUD operations, search functionality, filtering, and pagination for efficient task management.
- Designed responsive user interfaces using React.js to ensure compatibility across desktop and mobile devices.
- Built REST APIs and integrated MongoDB for persistent data storage.
- Optimized API performance and application responsiveness for improved user experience.
- Deployed the application using Netlify.

Key Skills: MERN Stack, CRUD Operations, React.js, Express.js, MongoDB, REST APIs

Food on Railway – Flutter Mobile Application

Tech Stack: Flutter, Dart, Firebase, REST APIs

- Developed a cross-platform railway food ordering application for Android and iOS using Flutter.
- Implemented real-time food ordering, order tracking, and dynamic user interfaces using reusable Flutter widgets.
- Integrated Firebase services and REST APIs for backend communication and data synchronization.
- Built responsive layouts using MediaQuery and LayoutBuilder to support multiple device sizes.
- Enhanced user experience with animations, custom themes, and loading indicators.
- Followed clean architecture principles and optimized application performance.

Key Skills: Flutter, Dart, Firebase, REST APIs, GetX, Cross-Platform Development
